On-Hold Plus 8000 *platinum series*

USB Flash Drive
Digital On-Hold Audio System

For Use With PBX & Key Phone Systems

The OHP 8000 plays audio directly from any USB Flash Drive for continuous playback. To add new audio content, just copy any mp3 file from your PC to the USB flash drive. Includes a 128MB USB Flash Drive that is preloaded with nearly 3 hours of great sounding, fully licensed music & messages -- so it's all ready to go, right out of the box. High quality audio playback coupled with up to 140 hours of playback time (via any off-the-shelf 2GB USB Flash drive) makes the OHP 8000 suitable for background music, Storecasting and music/message on-hold applications.

USB
FLASH DRIVE

Features

- **128MB USB Flash Drive** - Load new MP3 audio from any Mac or PC.
- **PC connection...strictly optional** - Unit uses PC only to update content stored on USB Flash Drive.
- **Rugged Anodized Aluminum Enclosure** - Tough wall-mountable enclosure built to withstand the toughest installations.
- **Built-in Monitor Speaker** - Listen to audio program from integrated speaker.
- **Trigger switch jack** - Allows connection of momentary switch to restart the audio from the beginning. Perfect for audio kiosk applications.
- **Auto start after power loss** - Retains stored preferences such as: music selection, repeat mode and volume settings. If power to the unit is lost, unit immediately returns to continuous playback with all settings without human intervention.
- **Ready to go right out of the box** - Pre-Loaded with nearly 3 hours of fully-licensed music & messages.
- **MessageStudio software** - Allows users to create new on-hold audio content with voice and music on their PC with a few mouse clicks. Then, just transfer the file directly to the USB Flash Drive.
- **Free personalization** - A free professionally-voiced, personalized on-hold production is provided to the customer automatically when the product is registered.
